Profile Summary

B.Tech graduate in Electronics and Communication Engineering currently pursuing Java Full Stack Development training at QSpiders, Bangalore. Strong foundation in **Core Java, OOP, SQL, MySQL, HTML, CSS, and JavaScript**, with hands-on experience building Java CRUD applications and a React-based web platform. Interested in developing end-to-end features across the **frontend, backend, and relational database layers**. Currently expanding knowledge of JDBC, Servlets, Spring Boot, and REST APIs. Seeking a Software Developer Intern role to build real-world applications and strengthen full-stack development skills.

Technical Skills

Programming	Core Java, SQL, JavaScript, Python
Java / Backend	Core Java, OOP, JDBC, Servlets, JSP, Spring, Spring Boot, REST APIs
Frontend	HTML5, CSS3, JavaScript
Database	MySQL, SQL Queries, CRUD Operations, Database Connectivity
Core Concepts	Object-Oriented Programming, Exception Handling, Collections, Data Structures, Algorithms, Multithreading
Tools	Git, GitHub, IntelliJ IDEA, Eclipse IDE, VS Code, Maven, Postman

Projects

Employee Management System Core Java, OOP, MySQL

- Developing a Java-based CRUD application for managing employee records through **create, search, update, and delete** operations.
- Applied Object-Oriented Programming principles to organize employee data and application functionality into reusable components.
- Integrated **MySQL** for persistent storage and practiced SQL queries for managing relational employee data.

AI-Enhanced 3D Printer Web Platform – PrintGuard AI React, Python, YOLOv8, OpenCV

- Developed a web-based platform for AI-assisted 3D printing and real-time print monitoring.
- Built the frontend using **React** and integrated computer vision components for automated print-defect detection.
- Worked across web technologies, AI components, and hardware integration as part of an end-to-end application.

Internships

Python Programming Web Designing Intern Jul 2024 CodeDesign Technologies Pvt. Ltd., Infopark, Kochi

- Completed a short-term internship focused on **Python programming** and basic web development.
- Developed small Python scripts and practiced programming concepts, debugging, and problem-solving.
- Gained practical exposure to **HTML, CSS, and JavaScript** and basic web development tools.

Python Data Science Intern Jan 2024 Srishti Innovative , Technopark, Trivandrum

- Participated in a short-term internship focused on **Python programming and introductory data science**.
- Practiced data processing, analysis, and Python programming using structured datasets.
- Gained introductory exposure to **machine learning workflows** and data-driven problem solving.

Education

2022–2026 **B.Tech in Electronics and Communication Engineering**

Bishop Jerome Institute of Technology, Kollam, Kerala

CGPA: 6.7 / 10

Certifications

- Programming in Java** – NPTEL, 2024
- C Programming Certification** – Infosys
- Certificate Course in Introduction to Machine Learning (CCIML)** – National Youth Programme, 2025
